

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:
CAMPBELL et al.

Serial No.: 10/560,803
Filed: December 15, 2005

Priority 60/479,009 on June 17, 2003

For: FLAME-RETARDANT
POLYOLEFIN COMPOUNDS
AND THEIR USE IN SURFACE
COVERINGS

Group Art Unit: 1714

Examiner: P.A. SZEKELY

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. §§ 1.56 and 1.97-1.99, Applicants provide the Office with the following statement:

Before June 17, 2002, the inventors experimented with a prototype of a flame retardant polymer alloy of an ethylene-styrene copolymer and a polyolefin elastomer. Samples of the prototype were sent potential customers on a private evaluation basis. Samples of the prototype passed the ASTM E-84 test in January 2002, but subsequently, the commercial source of the ethylene-styrene copolymer withdrew its product from the market. The inventors resumed experimentation, eventually arriving at the claimed compound, which passed the ASTM E-84 test in September 2002. No commercial offers for sale or public use occurred before June 17, 2002 of the claimed compound or surface coverings made using the claimed compound.

I hereby certify that this correspondence is being sent electronically via EFS-Web on:	
<u>June 6, 2006</u> Date	Signed <u>John H. Hornickel</u> John H. Hornickel Reg. No. 29,393

Applicants request the fee of \$180.00 be withdrawn from Deposit Account
07-1077.
